OLEOMARGARINE

PRODUCTION DURING JULY 1938

WITH COMPARISONS

Reports of oleomargarine manufacturers to the Bureau of Agricultural Economics indicate that the amount of oleomargarine produced in the United States during the month of July 1938 was slightly above 25,000,000 pounds. The amount was about 776,000 pounds less than that manufactured during July 1937 but approximately 3,250,000 pounds greater than the 5-year (1933-37) average.

The amount of product manufactured from vegetable and nut oils was approximately 88 percent of the total as compared with 12 percent manufactured from animal and vegetable oils.

The amount of uncolored goods was 99.6 percent as compared with 0.4 percent for colored.
